What Can Cause Emergency Air Conditioning Repair?

Common causes of emergency air conditioning repairs are:

**BRUNI &
CAMPISI**

Plumbing, Heating and Air Conditioning, Inc.

Poor Maintenance

- Poor maintenance is the number one reason for emergency calls.
- Check the system's owner manual regarding necessary preventive maintenance, including regularly changing filters and schedule a professional for a maintenance visit.
- A professional can clean and attend to system components, verifying fluid levels and other essential requirements.
